

Bibs – Measurements we ask for...

Your Dog's best size and fit will be a combination of Breed, Weight and measurements. We have **2 Bib Styles – the Half Trousers Bib and the SuperBib**. Collar, Weight and Front Leg Length measurements are required for both Bib styles with the exception of Chest Width.

Simply follow the Steps below and note down the measurements as you will need to enter them at Checkout.

* Record measurements in centimetres

STEP 1 – Collar Size & Dog's Weight

- Measure the length of your Dog's Collar.
- Record your Dog's Weight.

STEP 2 – Chest Width *[Required for Superbib only](#)

A **visual** is provided in Shop showing how to take this measurement.

- Get your Dog Standing and squat down to their level so you are face to face. Or put a smaller dog up on a table.
- Position your measuring tape from the outside of their left shoulder and extend it to the outside of their right shoulder– **see visual**.

STEP 3 – Front Leg Length

Leg measurement is important to ensure Dog Trousers are not too long or short, as all dogs are made differently. A **visual** is provided in Shop showing how to take this measurement.

We recommend you measure 3 times for consistency and accuracy.

- Get your Dog Standing and squat down to their level so you are face to face. Or put a smaller dog up on a table.
- Take the measurement from **INSIDE** a Front Leg – **see visual** Hold the top of the Front Leg with one hand and with your other hand place your measuring tape into the beginning of the armpit where the leg meets the body.
- Follow the measuring tape down to the top of Dew Claw or Ankle and record this measurement.
- If your Dog doesn't have Dew Claws measure to the Ankle.

Now you are ready to Go to our SizeChart and select your Dog Bib

- For M, L, XL and XXL Leg Length 1, 2 or 3 – select the closest match to **your Dog's** Front Leg measurement.
- If your Dog's weight is at the top end of our Size Chart or they have a very thick or Long Coat we recommend you consider the next size up.
- If you can't see your Dog's size or you are unsure [Click to Message Us](#)
- We ask for measurements as we check your product ordered against your measures before we cut. If something doesn't look right we will let you know!

A Big thanks for supporting our brand, Mary, the Aussie Dog Trouser Lady
